

## Ecosystem Services/Categories by Habitat

P - Provisions

Rg - Regulating Service

S - Support System

Rs - Resilience

C - Cultural Service

Mark the type of service next to each item.

	<b>Wetlands</b>		
S	Habitats for animals		
S	Filters toxins		
Rg	Reduces Flooding		
Rg/Rs	Helps sustain flow during dry periods		
Rg	Recharge Aquifers		
C	Recreation, bird watching, fishing, etc.		
	<b>Fresh water</b>		<b>Freshwater</b>
	Climate		Food
	Nutrients		Drinking water
	Waste treatment		Irrigation
	Flood control		Hydroelectricity
	Habitat for organisms		Recreation
	Genetic resources and biodiversity		Employment (Jobs)
	Scientific Information		Transportation corridor
	<b>Rivers</b>		<b>Rivers</b>
	Delivers nutrients & purifies water		Food
	Deposits silt that maintain deltas		Irrigation
	Renews and nourishes wetlands		Hydroelectricity
	Habitat for wildlife		Recreation
			Employment (Jobs)
			Transportation corridor

	Forests		
	Support energy flow		Fuel (Wood)
	Chemical cycling		Lumber
	Reduce soil erosion		Pulp for paper
	Purify Water and air		Mining
	Influence local and regional climate		Land for grazing
	Provides habitat		Recreation
	UV Protection (ozone)		Jobs
	Pollination		
	Marine		
	O <sub>2</sub> /Photosynthesis		
	Water purification		
	Climate control		
	CO <sub>2</sub> Absorption		
	Reduces storm damage (Mangroves, Barrer islands, Wetlands)		
	Biodiversity of species and habitats
