Water conservation:	
Water treatment:	

Seniors – what college or institution will you be attending next academic year? Or where do you think you will go?

Juniors – choose one of your favorite universities, colleges or institutions.

For your selection investigate the following (may or may not be LEEDS certified).

1. What is the project (building/space) you have focused on? Name?

- 2. What is the building/space used for? Be specific as to various functions it
- 3. What green design elements have been incorporated? Be specific as to category and how it fits.

- 4. How much has/will the project cost? Where did the funding come from?
- 5. Did the project pursue/achieve LEEDS certification? What level?
